Sensory Circuits Training for parents	<p>Open to parents from any year groups, delivered by SEND Occupational Therapy Team. This workshop is for parents to attend without children.</p> <p><b>Places are limited and must be booked via email (<a href="mailto:enquiry@turvesgreen.excelsiormat.org">enquiry@turvesgreen.excelsiormat.org</a>)</b></p> <p>The aim of the Sensory Circuits programme is to facilitate sensory processing and sensory integration, and to allow children to be in the optimum state of alertness, ready for learning</p>
Phonics Workshop Year 1	Parents are invited into a workshop where they will be joined by their children in the hall. This will give parents an insight into how children are taught phonics ahead of the Governments' statutory Phonics Screening Check in June 2026.
Open Lessons all year groups	Parents are invited to join their children in class for a 'normal' learning morning. This will give parents an insight into how their children learn in class and how they can further help children at home. Typically, you will see a maths lesson and an English lesson.
Mastering Number Workshop Reception, Year 1 and Year 2	The aim of the session is to share some of the things your child will be learning about at school. We will create some games and activities for you to share at home with your child that will support their understanding of Maths.
