

Seasides

Year 2

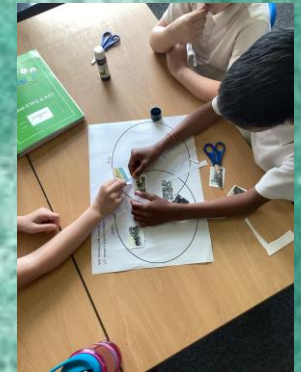

We hope you enjoy looking at our learning during the summer term.

Geography and History

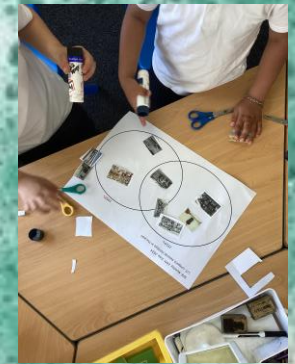

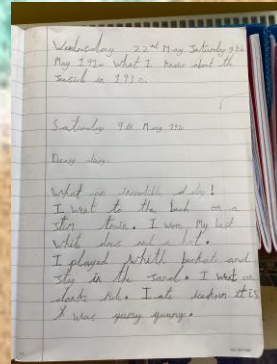

We looked at maps of the UK and identified where the coastline of the UK was. We found out that seaside locations are found around the coast of the UK.

We found out about seaside holidays in the past and how they are similar and different from holidays that we might take today.

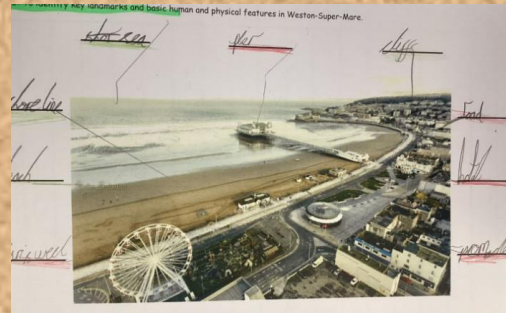

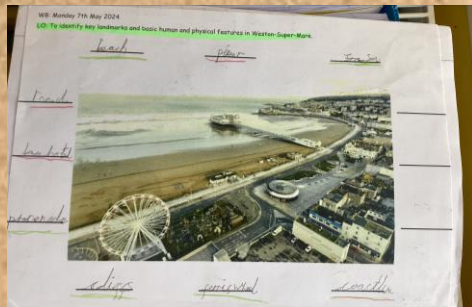

We explored seaside locations and learned about physical and man-made features of seaside locations.

We looked at what people wore when going to the beach in the past and what types of activities they took part in.

Wednesday 22nd May 2024
 I know about seaside holidays in the 1914
 I've had the best day ever. I went to the beach and played with buckets and spades. We got to the beach by a train and we wore our best clothes. I played with my friends and we had a picnic. I went to the beach and we had a picnic. I went to the beach and we had a picnic. I went to the beach and we had a picnic.

Science

WB: Monday 13th May 2024
 What do you think will happen to the plants? Will they grow? Will they be healthy?

Plant 1 had soil, water, light and warmth.	Plant 2 did not have soil.	Plant 3 did not have light.	Plant 4 did not have the right temperature.	Plant 5 did not have water.
Did it grow? <u>yes</u>	Did it grow? <u>yes</u>	Did it grow? <u>yes</u>	Did it grow? <u>No</u>	Did it grow? <u>No</u>
Is it healthy? <u>yes</u>	Is it healthy? <u>yes</u>	Is it healthy? <u>no</u>	Is it healthy? <u>no</u>	Is it healthy? <u>no</u>

Why do you think the healthy plants grew well.

We planted seeds and bulbs in our outdoor area and have been observing what happens to them.

Our science topic this term was 'Plants'. We looked at what plants need to grow. We tested our ideas.

We watched how seeds germinate and what conditions were needed for this to happen.

Why do you think the healthy plants grew well.

1) The most healthy plant was plant one
 2) Plant 4 and plant five did not grow
 3) The plant without sunlight it grew a little bit but it was not healthy
 4) plants need the right temperature
 5) and sunlight to germinate and to stay healthy they need water.

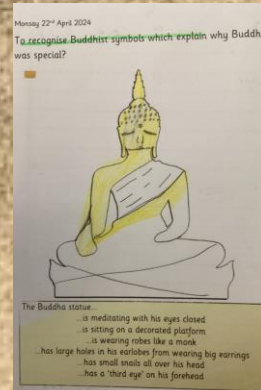

Wider Curriculum

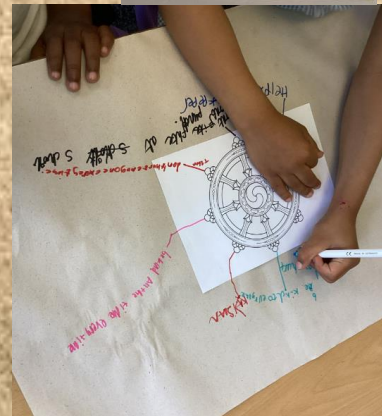

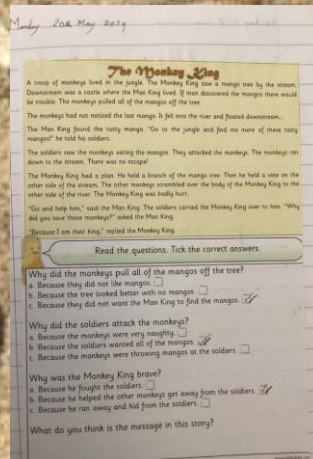

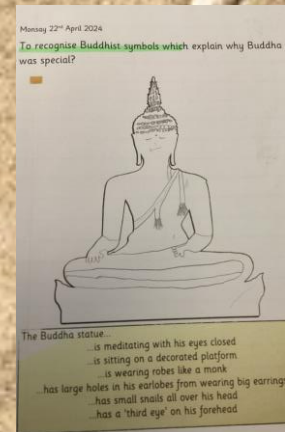

RE

This term we learned about Buddhism. We learnt the story of Siddhartha Guatama and how he became to be known as 'Buudha'. We found out about different Buddhist symbols and why Buddha was special.

Music

We learnt lots of new songs and explored rhythm, pulse and beat in music.

Computing

Abduhadi + Jasmine

Oscar + Corey

Layla + Quinn

Sophie and Joleen

In Computing this term, we created a short, animated film using Playdoh and Stop Motion software. We had to take a series of photographs, moving our Playdoh characters a tiny amount each time.

Art

We looked at patterns and textures around us. We then sketched our ideas before we made a printing block. We used our block to create repeated images which we rotated and repeated.
